NEWS RELEASE

Panther LR-204 Rifle

Varmint Hunters Get A DPMS Rifle Chambered in .204!

DPMS Panther Arms has answered the many requests by varmint hunters for a reliable and extremely accurate semi-automatic rifle with the LR-204. Chambered in .204 Ruger, this new rifle features a fluted, 24" stainless steel bull barrel with a 1x12 twist and a Koelbl single rail gas block for mounting additional iron sights. The Picatinny rail on the forged A3 Flattop upper receiver provides varmint hunters the ability to mount the scope of their choice. The hard coat anodized and black Teflon coated 7075-T6 aluminum receiver features a dust cover, forward assist and shell deflector. A phosphated, 8620 steel bolt and carrier, heat treated and plated per Mil Spec, along with the standard length aluminum free float tube complete the LR-204 upper assembly. The LR-204 lower assembly features a forged, 7075-T6 aluminum lower receiver that, like the upper receiver, has been hard coat anodized and Teflon coated black to create a truly black rifle. An aluminum trigger guard and magazine release button, along with the standard A2 Black Zytel Mil Spec with trap door assembly completes the LR-204 rifle. Additional specifications include a weight of 10.25 lbs. when empty and an overall length of 42 7/16".

Available now, the LR-204 (RFA3-204) will retail for $999.00.

DPMS is an industry leader in providing quality AR-style rifles, components and accessories. No other company offers more styles or configurations of AR rifles. DPMS also provides choices for high-power and small-bore shooters by offering several rifles chambered in .204 Ruger, .22LR, .223 Remington/5.56x45mm, 7.62x39mm, 6.8x43mm SPC, .243 Winchester, .308 Winchester, .260 Remington and .300 Remington SAUM.
